EUC
MAVERICK

DAVID FAYNOR

VOLUNTEER FIREFIGHTER & EUC CHANGE AGENT

IN THE HIGH-STAKES WORLD OF IT SERVICES, EUC MAVERICKS

"CHALLENGE EVERYTHING"
WITH IGEL

Each year IGEL awards the title of **EUC MAVERICK** to 12 IT PROFESSIONALS at the top of their game

EUC MAVERICK:
DAVID FAYNOR

"Nobody cares about IT until something is broken."

~ David Faynor

David Faynor is one of IGEL's "EUC Mavericks". This select group of individuals are blazing trails in helping their organizations solve their most pressing business challenges, using IGEL's industry-leading software-driven endpoint computing solutions, alongside technology solutions offered by IGEL's growing ecosystem of IGEL Ready partners.

Through the efforts of Faynor and his team at Pittsburgh Mercy:

- **Hundreds of frontline healthcare workers were quickly and seamlessly transitioned at the outset of the COVID pandemic, enabling them to now securely connect** to the mission-critical applications and resources to deliver trauma-informed behavioral health and wellness services within their communities.

- **98% of Pittsburgh Mercy's on-premises endpoint infrastructure has been converted** from Windows endpoints or Wyse thin clients to IGEL OS-powered endpoints.

- IGEL OS-powered Lenovo Yoga L13 Convertible Ultrabooks and repurposed Dell laptops **provide secure, mobile access to digital workspaces** and telehealth applications over cellular networks.

Since becoming an "EUC Maverick" Faynor continues to advocate for IGEL both inside Pittsburgh Mercy and throughout the IGEL Community, and was "Runner Up" in 2021 for IGEL Community Member of the Year.

"

I love IGEL OS, it is light years ahead of everybody else in terms of security, manageability and ease of use, so it made a lot of sense for us to extend the use of IGEL OS into the field. The beauty of IGEL OS is that it works on virtually any x86-64 compatible endpoint, which made it easy to standardize on IGEL"

WHAT'S AN
EUC
MAVERICK?

EUC Mavericks are at the very top of their game **"CHALLENGING EVERYTHING"** in the delivery of cutting-edge IT services. David was inducted by IGEL into the **EUC MAVERICKS HALL OF FAME** in November 2021.
