

IGEL ADVANCED SERVICES

IGEL Academy Premium

Advanced IGEL Training for Life!

IGEL Academy, our Learning Management System (LMS), is the focal point for learning all things IGEL. IGEL Academy enables our partners and customers to reach their goals faster through formally constructed and socially farmed content from throughout the vast IGEL community.

Why Purchase IGEL Academy Premium?

Access to essential IGEL training is available for free on IGEL Academy, however, if you want your engineers to master the features and functionality of IGEL COSMOS, a higher level of instruction is required. IGEL Academy Premium opens the door to advanced, hands-on training and certifications that fully enables your staff.

IGEL Academy Premium gives learners access to ALL Premium content, present and future, until the courses and/or certifications expire and are retired.

IGEL Academy Premium

Advanced IGEL Training for Life!

What is IGEL Academy Premium?

IGEL Academy Premium contains advanced IGEL technical courses and exams. Purchasing IGEL Academy Premium entitles *one learner* access to all IGEL courses and exams until they are retired.

IGEL Certified Engineer (ICE) for COSMOS

The IGEL Certified Engineer for COSMOS course is the centerpiece of the IGEL Academy Premium offering.

ICE is an engineer-level course on IGEL COSMOS that includes hands-on virtual lab environments matched with self-paced eLearning. Included is a comprehensive exam for certification!

SOME COVERED TOPICS:

- Hands-on UMS installation and basic configuration via live labs
- UMS administration (both consoles)
- Active Directory integration
- IGEL COSMOS Portal simulation
- IGEL License Portal (ILP) simulation
- Installation and configuration of apps via IGEL App Portal
- Device registration and configuration of OS11 and OS12 devices
- Onboarding (OBS) and Single Sign On (SSO) simulations
- Profile customization & firmware updates
- Deploying files and certificates

ICEPACKS

An ICEPACK is a supplemental course to the IGEL Certified Engineer (ICE) course that deep-dives into specialized topics. All current and future ICEPACKS for the COSMOS platform are included with Premium access. Current ICEPACKS are:

- IGEL Cloud Gateway (ICG) (OS11-centric)
- Custom Partition Fundamentals (OS11-centric)

FUTURE ICEPACK TOPICS:

- Imprivata
- Citrix
- Identity Providers (ie. Okta, PING, Azure)

IGEL Certified Architect (ICA)

The IGEL Certified Architect course is focused on advanced IGEL configuration. Included is a thorough exam for attaining certification! ICA for COSMOS coming soon!

SOME TOPICS COVERED:

- Infrastructure sizing and scaling
- High availability options
- Deployment via SCCM plugin
- Database clustering for DR
- Backup and recovery

Value that's hard to measure!

Investing in education makes sense!
